Summary

Seasoned UI Developer with 18+ years of experience specializing in front-end development and UI architecture. Proven expertise in designing, implementing, and leading the creation of robust, scalable, and high-performance user interfaces that align with strategic business goals. Adept at translating complex business needs into elegant technical solutions, mentoring development teams, and driving technical direction. Passionate about clean architecture, performance optimization, and delivering impactful digital products.

Technical Skills

- **Frontend:** Angular, React, Vue.js, TypeScript, JavaScript, HTML5, CSS3, SCSS, Bootstrap, Tailwind CSS, Material UI
- **Backend:** Node.js, Express.js, Python, Django, REST APIs, GraphQL, MongoDB
- **Tools & Others:** Git, Docker, Jenkins, Spinnaker, AWS, Webpack, Figma, Github Copilot, Cursor AI, Vibe Coding

Professional Experience

Principal Product Developer | BMC Software 2021 – Present

- Designed and developed reusable UI components for the AIOps – Service Monitoring application, significantly enhancing scalability and consistency across the platform.
- Collaborated closely with product managers, UX designers, and backend teams to ensure technical solutions were aligned with business objectives.
- Established and enforced front-end best practices, including coding standards, accessibility compliance, and performance optimization.
- Actively contributed to Agile/Scrum processes by facilitating sprint planning, standups, and retrospectives to ensure timely and efficient delivery.
- **Technologies:** Angular 18, TypeScript, SCSS, RxJS, NgRx, NodeJS, Grafana, Figma

Principal Product Developer | Hitachi Vantara 2018 – 2021

- Developed web applications such as AIOps and Cloud Cost Optimization using Angular.
- Collaborated with product managers, UX designers, and backend engineers to ensure UI development aligned with business goals.
- Engaged with stakeholders to gather requirements and provide regular updates on project progress.
- Led the planning, execution, and delivery of new UI features, maintaining high standards for quality and meeting project timelines.
- **Technologies:** Angular, ReactJs, NextJs, Node.js, AWS

Lead Engineer | Altisource Labs 2013 – 2018

- Led the development of the LendersOne marketplace project, delivering responsive and cross-browser compatible web solutions.
- Designed and implemented new modules using AngularJS, Bootstrap, HTML5, CSS3, and jQuery.
- Ensured seamless support across all major mobile devices, including iOS and Android platforms.
- Focused on performance optimization by streamlining HTML, CSS, and JavaScript for faster application load times.
- **Technologies:** Angular, AngularJS, JavaScript, jQuery, TypeScript, CSS3, Bootstrap, Git

Sr. UI Engineer | Wolters Kluwer Financial & Compliance Services 2012 – 2013

- Built responsive websites and web applications with a focus on modern JavaScript frameworks.
- **Technologies:** HTML5, CSS3, JavaScript, jQuery, Bootstrap, Git

Senior Software Developer | Kuliza Technologies 2008 – 2012

- Built responsive websites and web applications using frameworks such as Joomla, WordPress, and Django.
- Focused on front-end development with modern JavaScript frameworks.
- **Technologies:** HTML5, CSS3, JavaScript, Bootstrap, jQuery, Joomla, WordPress, Django

Web Developer | ADDR Technologies 2007 – 2008

- Developed pixel-perfect web pages from PSD designs using HTML and CSS.
- Ensured cross-browser compatibility and built interactive features using jQuery.
- Collaborated with designers and backend developers to integrate front-end components.
- Optimized web pages for performance and fast loading times.
- **Technologies:** HTML5, CSS3, JavaScript, jQuery, Photoshop

Education

Master of Computer Applications | Indira Gandhi National Open University 2003 – 2006

Bachelor of Computer Applications | Indira Gandhi National Open University 2001 – 2003
